### Introduction: Wipe and Glove Box Holder Instruction Guide

#### The Fault

Lack of storage solutions available from factory options in commercial vehicles

Most commercial vehicles, van and camper conversions have limited storage solutions. They often come with the rear of the vehicle completely bare except from the MDF cladding on the inside of the shell.

#### Our Solution

Install X8R's universal XL wipe and glove storage bracket in under 5 minutes for a simple storage solution.

X8R's XL wipe and glove holder is the perfect solution for tradespeople such as carpenters, electricians, plumbers, decorators, mobile mechanics and more. The holder can be fitted using self-tapping screws for an easy installation (no power tools required, although you can use an electric drill if you wish) in under 5 minutes.

The bracket could also be wall-mounted such as in garages etc. Please ensure you use suitable wall plugs.

The bracket is made from 1.5mm thick black powder coated steel, a far superior material versus the inferior plastic other solutions which often break.

## Compatibility

The bracket is compatible with the following:

- Uniwipe Ultragrim (all varieties)
- All boxed gloves with a width of 23cm or less

## You Will Receive

1 x XL trade wipe/glove bracket in black powder coated steel

## Supplies

You will need:

- 6 x Self tapping screws (we recommend 3.5x16mm)
- Screw driver or electric drill
- Spirit level
- Marker

## Step 1:

Press the bracket against the wall you're fitting it to. Ensure it is level with a spirit level. Mark the holes with a pen.

Use a screwdriver or electric drill to fit the screws into the holes.

This completes the installation. If you need any further guidance on this install or would like to purchase the parts shown please call us on +44 01843 446643 or email us at [sales@x8r.co.uk](mailto:sales@x8r.co.uk). Please also check out our instruction guide on YouTube. [www.x8r.co.uk](http://www.x8r.co.uk) Installation is carried out at installer's risk, if unsure please contact us or a professional, X8R Ltd cannot be held responsible for any adverse result of installing this product or any injuries caused by install, if in doubt ask a professional.
